APPOINTMENTS

Meta Platforms, Inc.
Research Scientist

Sunnyvale, CA
Aug 2025–Now

University of Minnesota
Postdoctoral Associate, Department of Electrical and Computer Engineering
Mentor: Mingyi Hong and Shuzhong Zhang

Minneapolis, MN
Jan 2024–Aug 2025

EDUCATION

University of California, Davis
Ph.D. in Applied Mathematics, GPA: 3.97/4.00
Advisors: Shiqian Ma and Krishnakumar Balasubramanian

Davis, CA
2018–2023

Zhejiang University
B.S. in Mathematics, GPA: 3.88/4.00

Hangzhou, China
2014–2018

RESEARCH INTEREST

My research interests lie at the optimization problems arising in machine learning, operations research and other applications. Specifically, I am working on the following topics:

- Computational complexities for gradient-based, gradient-free (zeroth-order) and primal-dual algorithms for solving nonconvex optimizations and optimization on Riemannian manifolds.
- Convergence theory for deterministic and stochastic minimax/bilevel problems with applications in operations research and machine learning.
- Distributed optimization algorithms, including decentralized and federated learning.
- Theories for reinforcement learning algorithms, especially policy-based methods, and their applications in large language model (LLM) alignments.
- Efficient pre-training and fine-tuning of large language models (LLMs).
- Theory and computation of supervised and unsupervised learning in general.

INTERNSHIP EXPERIENCE

Amazon.com, Inc.
Applied Scientist Intern

Seattle, WA
June 2023–Sept 2023

- Amazon Prime Science ML Team
- Built customer-prime service engagement history aggregation model with 1.2% offline evaluation gain
- Developed data pipeline for engagement history features using Pyspark and AWS services
- Built customer-prime service engagement trajectory model using seq2seq modeling and Attention networks

Meta Platforms, Inc.
Software Engineer Intern, Machine Learning

Menlo Park, CA
June 2022–Sept 2022

- Ads Core Machine Learning ENG Team
- Built reinforcement learning based Slate-Q long-term value optimization for Ads recommender in Facebook
- Designed large-scale data pipeline and managed data from industry-level databases using SQL and Hadoop Hive
- Initiated and conduct large-scale deep Q-networks training in PyTorch

HONORS AND AWARDS

- INFORMS Computing Society Prize 2024
- INFORMS Optimization Conference Travel Award 2024
- Graduate Student Fellowship at UC Davis 2018–2019, 2022–2023

PUBLICATIONS AND PREPRINTS (* MARKS CO-FIRST AUTHOR)

FUNDINGS

- I am a **Co-PI** of NSF grant ECCS-2426064. Prof. Mingyi Hong is the PI.

TEACHING

- **Lecturer** at University of Minnesota
 - EE5239 Introduction to Nonlinear Optimization (Jointly teaching with Prof. Mingyi Hong)
- **Teaching Assistant** at UC Davis
 - MAT 127 Real Analysis
 - MAT 168 Optimization
 - MAT 170 Math in Data Science
 - MAT 21 ABCD Calculus Series
 - MAT 17 ABC Calculus for Biology Series

TALKS

- | | |
|--|--------------|
| <ul style="list-style-type: none"> • INFORMS Annual meeting, session speaker
Topic: A Riemannian ADMM | October 2024 |
| <ul style="list-style-type: none"> • INFORMS Optimization Society Conference, session speaker
Topic: Zeroth order moving average methods on manifolds | March 2024 |
| <ul style="list-style-type: none"> • INFORMS Optimization Society Conference, session speaker
Topic: Zeroth order optimization on Riemannian manifolds | March 2022 |
| <ul style="list-style-type: none"> • Modeling and Optimization: Theory and Applications (MOPTA), session speaker
Topic: Zeroth order optimization on Riemannian manifolds | August 2021 |
| <ul style="list-style-type: none"> • SIAM Conference on Optimization, session speaker
Topic: Zeroth order optimization on Riemannian manifolds | July 2021 |

ACADEMIC SERVICES

- Journal Reviewer
INFORMS Journal on Computing, Information and Inference: A Journal of the IMA, Journal of Machine Learning Research, Computational Optimization and Applications, Journal of Scientific Computing, Journal of Global Optimization
- Conference Reviewer
AISTATS (2021, 2022, 2023), ICML (2022, 2024), NeurIPS (2023, 2024), ICLR (2023, 2024), AAAI (2024)

SKILLS AND TOOLS

- Coursework highlights: Probability Theory, Numerical Linear Algebra, Numerical and Combinatorial Optimization, High-dimensional Statistics, Machine Learning, Natural Language Processing, Data Structure, Database
- C/++, Python (PyTorch, TensorFlow, Numpy, Scipy, Sklearn, Pandas, PySpark, etc.), AWS, MATLAB, R, SQL, Git, Linux, \LaTeX , etc.
